Market derivatives are rarely used to add value due to mispricings. The manager does not employ "naked" written options strategies to increase yield. Credit derivatives are allowed, but used very infrequently and only within credit policies and limits. **FAIS disclaimer:** Futuregrowth Asset Management (Pty) Ltd ("Futuregrowth") is a licensed discretionary financial services provider, FSP 520, approved by the Registrar of the Financial Services Board to provide intermediary services and advice in terms of the Financial Advisory and Intermediary Services Act 37 of 2002.
